Contents

Number 1, February 2005

1 ANNOUNCEMENTS

3 A. E. MILNE, R. M. LARK, T. M. ADDISCOTT, K. W. T. GOULDING, C. P. WEBSTER & S. O'FLAHERTY
Wavelet analysis of the scale- and location-dependent correlation of modelled and measured nitrous oxide emissions from soil

19 G. H. SCHMITZ, H. PUHLMANN, W. DRÖGE & F. LENNARTZ
Artificial neural networks for estimating soil hydraulic parameters from dynamic flow experiments

31 P. D. HALLETT & T. A. NEWSON
Describing soil crack formation using elastic – plastic fracture mechanics

39 P. PODWOJEWSKI & N. GERMAIN
Short-term effects of management on the soil structure in a deep tilled hardened volcanic-ash soil (cangahua) in Ecuador

53 J. R. VERDE, M. CAMPS ARBESTAIN & F. MACÍAS
Expression of andic properties in soils from Galicia (NW Spain) under forest and agricultural use

65 C. L. S. WISEMAN & W. PÜTTMANN
Soil organic carbon and its sorptive preservation in central Germany

77 K. OORTS, B. VANLAUWE, S. RECOUS & R. MERCKX
Redistribution of particulate organic matter during ultrasonic dispersion of highly weathered soils

93 D. A. ABAYE, K. LAWLOR, P. R. HIRSCH & P. C. BROOKES
Changes in the microbial community of an arable soil caused by long-term metal contamination

103 J. SEVINK, F. OBALE-EBANGA & H. A. J. MEIJER
Land-use related organic matter dynamics in North Cameroon soils assessed by ^{13}C analysis of soil organic matter fractions

113 T. DELFOSSE, P. DELMELLE, A. ISERENTANT & B. DELVAUX
Contribution of SO_3 to the acid neutralizing capacity of Andosols exposed to strong volcanogenic acid and SO_2 deposition

127 T. DELFOSSE, P. DELMELLE, C. GIVRON & B. DELVAUX
Inorganic sulphate extraction from SO_2-impacted Andosols

135 N. R. A. BIRD, A. R. PRESTON, E. W. RANDALL, W. R. WHALLEY & A. P. WHITMORE
Measurement of the size distribution of water-filled pores at different matric potentials by stray field nuclear magnetic resonance

Number 2, April 2005

145 A. Kohler, K. C. Abbaspour, M. Fritsch & R. Schulin
Solute recycling by crops and leaching in a drained arable soil

155 G. S. Toor, L. M. Condron, B. J. Cade-Menun, H. J. Di & K. C. Cameron
Preferential phosphorus leaching from an irrigated grassland soil

169 J. B. Yavitt, C. J. Williams & R. K. Wieder
Soil chemistry versus environmental controls on production of CH_4 and CO_2 in northern peatlands

179 Y. Shirato, K. Paisancharoen, P. Sangtong, C. Nakviro, M. Yokozawa & N. Matsumoto
Testing the Rothamsted Carbon Model against data from long-term experiments on upland soils in Thailand

189 B. W. Strobel, O. K. Borggaard, H. C. B. Hansen, M. K. Andersen & K. Raulund-Rasmussen
Dissolved organic carbon and decreasing pH mobilize cadmium and copper in soil

197 B. S. Griffiths, P. D. Hallett, H. L. Kuan, Y. Pitkin & M. N. Aitken
Biological and physical resilience of soil amended with heavy metal-contaminated sewage sludge

207 F. Bartoli, V. Genevois-Gomendy, J. J. Royer, S. Niquet, H. Vivier & R. Grayson
A multiscale study of silty soil structure

225 C. Legout, S. Leguédois & Y. Le Bissonnais
Aggregate breakdown dynamics under rainfall compared with aggregate stability measurements

239 S. K. Woche, M.-O. Goebel, M. B. Kirkham, R. Horton, R. R. van der Ploeg & J. Bachmann
Contact angle of soils as affected by depth, texture, and land management

253 P. Buurman, P. F. van Bergen, A. G. Jongmans, E. L. Meijer, B. Duran & B. van Lagen
Spatial and temporal variation in podzol organic matter studied by pyrolysis-gas chromatography/mass spectrometry and micromorphology

271 V. C. Farmer
Forest vegetation does recycle substantial amounts of silicon from and back to the soil solution with phytoliths as an intermediate phase, contrary to recent reports

273 Book reviews

Number 3, June 2005

281 T. Delfosse, F. Elsass & B. Delvaux
Direct evidence of basic aluminium sulphate minerals in an S-impacted Andosol

287 R. Celis, M. Real, M. C. Hermosín & J. Cornejo
Sorption and leaching behaviour of polar aromatic acids in agricultural soils by batch and column leaching tests

299 B. Marschner, R. Winkler & D. Jödemann
Factors controlling the partitioning of pyrene to dissolved organic matter extracted from different soils

307 R. M. Lark
Exploring scale-dependent correlation of soil properties by nested sampling

319 L. Dupuy, T. Fourcaud & A. Stokes
A numerical investigation into factors affecting the anchorage of roots in tension

329 Bhupinderpal-Singh, M. J. Hedley & S. Saggar
Characterization of recently ^{14}C pulse-labelled carbon from roots by fractionation of soil organic matter

343 A. Piccolo, P. Conte, R. Spaccini & J. S. C. Mbagwu
Influence of land use on the characteristics of humic substances in some tropical soils of Nigeria

353 W. R. Whalley, B. Riseley, P. B. Leeds-Harrison, N. R. A. Bird, P. K. Leech & W. P. Adderley
Structural differences between bulk and rhizosphere soil

361 I. Braud, D. De Condappa, J. M. Soria, R. Haverkamp, R. Angulo-Jaramillo, S. Galle & M. Vauclin
Use of scaled forms of the infiltration equation for the estimation of unsaturated soil hydraulic properties (the *Beerkan* method)

375 E. Braudeau, M. Sene & R. H. Mohtar
Hydrostructural characteristics of two African tropical soils

389 T. Tokida, T. Miyazaki, M. Mizoguchi & K. Seki
In situ accumulation of methane bubbles in a natural wetland soil

397 K. S. Nilsson, R. Hyvönen & G. I. Ågren
Using the continuous-quality theory to predict microbial biomass and soil organic carbon following organic amendments

407 M. W. I. Schmidt & G. Gleixner
Carbon and nitrogen isotope composition of bulk soils, particle-size fractions and organic material after treatment with hydrofluoric acid

417 C. I. Czimczik, M. W. I. Schmidt & E.-D. Schulze
Effects of increasing fire frequency on black carbon and organic matter in Podzols of Siberian Scots pine forests

429 Referees for the European Journal of Soil Science in 2004

Number 4, August 2005

433 ANNOUNCEMENTS

435 UTTAM. KUMAR. MANDAL, K. V. RAO, P. K. MISHRA, K. P. R. VITTAL, K. L. SHARMA, B. NARSIMLU & K. VENKANNA
Soil infiltration, runoff and sediment yield from a shallow soil with varied stone cover and intensity of rain

445 G. MCHALE, M. I. Newton & N. J. SHIRTCLIFFE
Water-repellent soil and its relationship to granularity, surface roughness and hydrophobicity: a materials science view

453 M. M. PULLEMAN, J. SIX, N. VAN BREEMEN & A. G. JONGMANS
Soil organic matter distribution and microaggregate characteristics as affected by agricultural management and earthworm activity

469 K. DENEF & J. SIX
Clay mineralogy determines the importance of biological versus abiotic processes for macroaggregate formation and stabilization

481 A. SIREGAR, M. KLEBER, R. MIKUTTA & R. JAHN
Sodium hypochlorite oxidation reduces soil organic matter concentrations without affecting inorganic soil constituents

491 K. KHALIL, P. RENAULT, N. GUÉRIN & B. MARY
Modelling denitrification including the dynamics of denitrifiers and their progressive ability to reduce nitrous oxide: comparison with batch experiments

505 S. SLEUTEL, S. DE NEVE, M. R. PRAT ROIBÁS & G. HOFMAN
The influence of model type and incubation time on the estimation of stable organic carbon in organic materials

515 M. SHENKER, S. SEITELBACH, S. BRAND, A. HAIM & M. I. LI TAOR
Redox reactions and phosphorus release in re-flooded soils of an altered wetland

527 T. RENNERT & T. MANSFELDT
Iron-cyanide complexes in soil under varying redox conditions: speciation, solubility and modelling

537 B. JANSEN, K. G. J. NIEROP & J. M. VERSTRATEN
Mechanisms controlling the mobility of dissolved organic matter, aluminium and iron in podzol B horizons

551 M. AMINI, K. C. ABBASPOUR, H. KHADEMI, N. FATHIANPOUR, M. AFYUNI & R. SCHULIN
Neural network models to predict cation exchange capacity in arid regions of Iran

Number 5, October 2005

561 A. Ciani, K.-U. Goss & R. P. Schwarzenbach
Light penetration in soil and particulate minerals

575 E. Fritsch, G. Morin, A. Bedidi, D. Bonnin, E. Balan, S. Caquineau & G. Calas
Transformation of haematite and Al-poor goethite to Al-rich goethite and associated yellowing in a ferralitic clay soil profile of the middle Amazon Basin (Manaus, Brazil)

589 A. Rey, C. Petsikos, P. G. Jarvis & J. Grace
Effect of temperature and moisture on rates of carbon mineralization in a Mediterranean oak forest soil under controlled and field conditions

601 N. J. Barrow, P. Cartes & M. L. Mora
Modifications to the Freundlich equation to describe anion sorption over a large range and to describe competition between pairs of ions

607 S. Norra, L. L. Handley, Z. Berner & D. Stüben
^{13}C and ^{15}N natural abundances of urban soils and herbaceous vegetation in Karlsruhe, Germany

621 D. Solomon, J. Lehmann, I. Lobe, C. E. Martinez, S. Tveitnes, C. C. Du Preez & W. Amelung
Sulphur speciation and biogeochemical cycling in long-term arable cropping of subtropical soils: evidence from wet-chemical reduction and S K-edge XANES spectroscopy

635 B. Ludwig, F. Beese & K. Michel
Modelling cation transport and pH buffering during unsaturated flow through intact subsoils

647 G. W. Horgan & B. C. Ball
Modelling the effect of water distribution and hysteresis on air-filled pore space

655 R. J. A. Jones, R. Hiederer, E. Rusco & L. Montanarella
Estimating organic carbon in the soils of Europe for policy support

673 P. Smith
An overview of the permanence of soil organic carbon stocks: influence of direct human-induced, indirect and natural effects

681 Book reviews

Number 6, December 2005

689 I. Basile-Doelsch, R. Amundson, W. E. E. Stone, C. A. Masiello, J. Y. Bottero, F. Colin, F. Masin, D. Borschneck & J. D. Meunier
Mineralogical control of organic carbon dynamics in a volcanic ash soil on La Réunion

705 J. Dieckow, J. Mielniczuk, H. Knicker, C. Bayer, D. P. Dick & I. Kögel-Knabner
Composition of organic matter in a subtropical Acrisol as influenced by land use, cropping and N fertilization, assessed by CPMAS ^{13}C NMR spectroscopy

717 M. Kleber, R. Mikutta, M. S. Torn & R. Jahn
Poorly crystalline mineral phases protect organic matter in acid subsoil horizons

727 S. Zingore, C. Manyame, P. Nyamugafata & K. E. Giller
Long-term changes in organic matter of woodland soils cleared for arable cropping in Zimbabwe

737 V. Mathé & F. Lèvêque
Trace magnetic minerals to detect redox boundaries and drainage effects in a marshland soil in western France

753 K. Eusterhues, C. Rumpel & I. Kögel-Knabner
Organo-mineral associations in sandy acid forest soils: importance of specific surface area, iron oxides and micropores

765 H. Ciglasch, W. Amelung, S. Totrakool & M. Kaupenjohann
Water flow patterns and pesticide fluxes in an upland soil in northern Thailand

779 R. M. Lark
Spatial analysis of categorical soil variables with the wavelet transform

793 D. Gondar, R. López, S. Fiol, J. M. Antelo & F. Arce
Effect of soil depth on acid properties of humic substances extracted from an ombrotrophic peat bog in northwest Spain

803 M. Wehrer & K. U. Totsche
Determination of effective release rates of polycyclic aromatic hydrocarbons and dissolved organic carbon by column outflow experiments

815 C. Fang, P. Smith & J. U. Smith
A simple equation for simulating C decomposition in a multi-component pool of soil organic matter

821 T. Peltovuori & H. Soinne
Phosphorus solubility and sorption in frozen, air-dried and field-moist soil
